

"Both the Royal Leamington Spa Town Council and Warwick District Council Liberal Democrats responded to Options for Growth by vigorously supporting the retention of all allotments, especially those threatened in Leamington.

We hope this threat will now recede & become a thing of the past. Allotments and wholesomely grown local produce is a key element in our national push for sustainability & coping with the high cost of oil & transport - we support you wholeheartedly. Allotment land should be excluded from any option because of its enormous amenity and ecological value. This is particularly true of the allotment land to the north of Leamington Spa."

Best wishes, Cllr Roger Copping (Lib/Dem Manor Ward, Warwick District Council & Leamington Spa Town Council)
